

Glossary

ancestors people in someone's family who lived long ago

ballot a piece of paper used to mark a choice during a vote

cardinal directions the four directions pointing north, south, east, and west

conveyor belts long moving belts that carry goods

council a group of people who help a leader make decisions

drought a time when there is no rain, and the weather is very dry

elected chosen by a vote

equator an imaginary circle around the middle of the Earth, dividing the Earth into the northern hemisphere and the southern hemisphere

hemisphere one half of the Earth that is north or south of the equator, or east or west of the prime meridian

human resources people who make goods or provide services

independent free or not controlled by another country

intermediate directions directions that come between two cardinal directions, such as northeast, southeast, southwest, and northwest

landslide a large mass of soil or rocks falling down the side of a mountain

mayor an elected leader of a community

ministers people in charge of departments in the government

monsoon a strong wind that brings rain

nomads people who move from place to place looking for food and water

North Pole the most northern point on Earth; the northern end of the Earth's axis

oasis a place in the desert where there is water under the sand

polluted spoiled by garbage, dirt, or chemicals

prime meridian an imaginary line that joins the North Pole and the South Pole, dividing the Earth into the eastern hemisphere and the western hemisphere

rain forest a thick forest in rainy areas of the world where many different plants, birds, and animals live

referendum a chance to vote "yes" or "no" to a question

refugee a person who has left home because of war or other disasters

relative location comparing the location of one place to another

sanctuary a safe place

solar power turning energy from the sun into electricity

South Pole the most southern point on Earth; the southern end of the Earth's axis

terraces flat areas on the side of a mountain that look like steps

textiles clothes or cloth

tornado a storm with strong circular winds that look like a spinning cloud moving across the land
